

Bienvenue à Bordeaux

Welcome to Bordeaux

Jean-Marc BOUILLY (EADS Astrium)

Chair Local Organising Committee

5th International Planetary Probe Workshop

IPPW-5, Bordeaux, June 23-29, 2007

SESSION I: Current outlook (S. Hubbard, J.-P. Lebreton)

9:00 - 9:15 Opening remarks, Welcome, Logistics, etc..

J-P Lebreton, P. Plotard, J-M. Bouilly

09:15-9:45 (Invited) J. Green

“The NASA’s Planetary Science Missions and Plans”

9:45-10:15 (Invited) M. Blanc

“ ESA’s Cosmic Vision”

10:15-10:30 Break

10:30-11:00 (Invited) J. Blamont

“Ballooning in planetary atmospheres: history and perspectives”

11:00-11:15 Q&A and Discussion

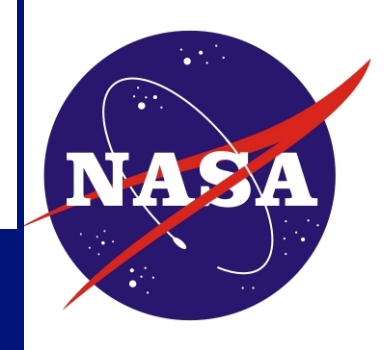

11:15-11:45 Al Seiff Award Presentation: H. Niemann

“Planetary Entry Probes and Mass Spectroscopy: Tools and science results from in situ studies of planetary atmospheres and surfaces”

11:45-12:00 Short talk of lunch sponsors

EADS Astrium & Snecma Propulsion Solide

12:00-13:30 Lunch

Many thanks to IPPW-5 Organizers and Sponsors

**...and to all those
who have prepared
this Workshop**

**Presentations given from the
conference computer : please load it
prior to the beginning of your session**

**Session conveners and lecturers :
please keep the schedule
....with appropriate flexibility**

Wifi : password adera2007

Breaks : in the room beside

Lunch :

- Today and on Thursday at Mercure Hotel
- Tomorrow at 'Restaurant Inter-Administratif'
- Wednesday lunch included in the 'St-Emilion Tour'

Posters :

- In this room + beside for the whole week
- Predefined location for each poster
- 2 slots are scheduled today and tomorrow

The background of the slide is a cosmic-themed illustration. It features a large, brown, cratered planet in the center, resembling a celestial body like a moon or a small planet. Surrounding this central body are several other celestial objects: a ringed planet (like Saturn) in the upper left, a bright yellow star or planet in the upper right, and a smaller, textured sphere in the lower left. The overall color palette is dominated by warm tones like yellow, orange, and brown, with some cooler blue and green accents from the distant celestial bodies.

**Pass tram : free ticket for public
transports offered by CUB
(Communauté Urbaine de Bordeaux)**

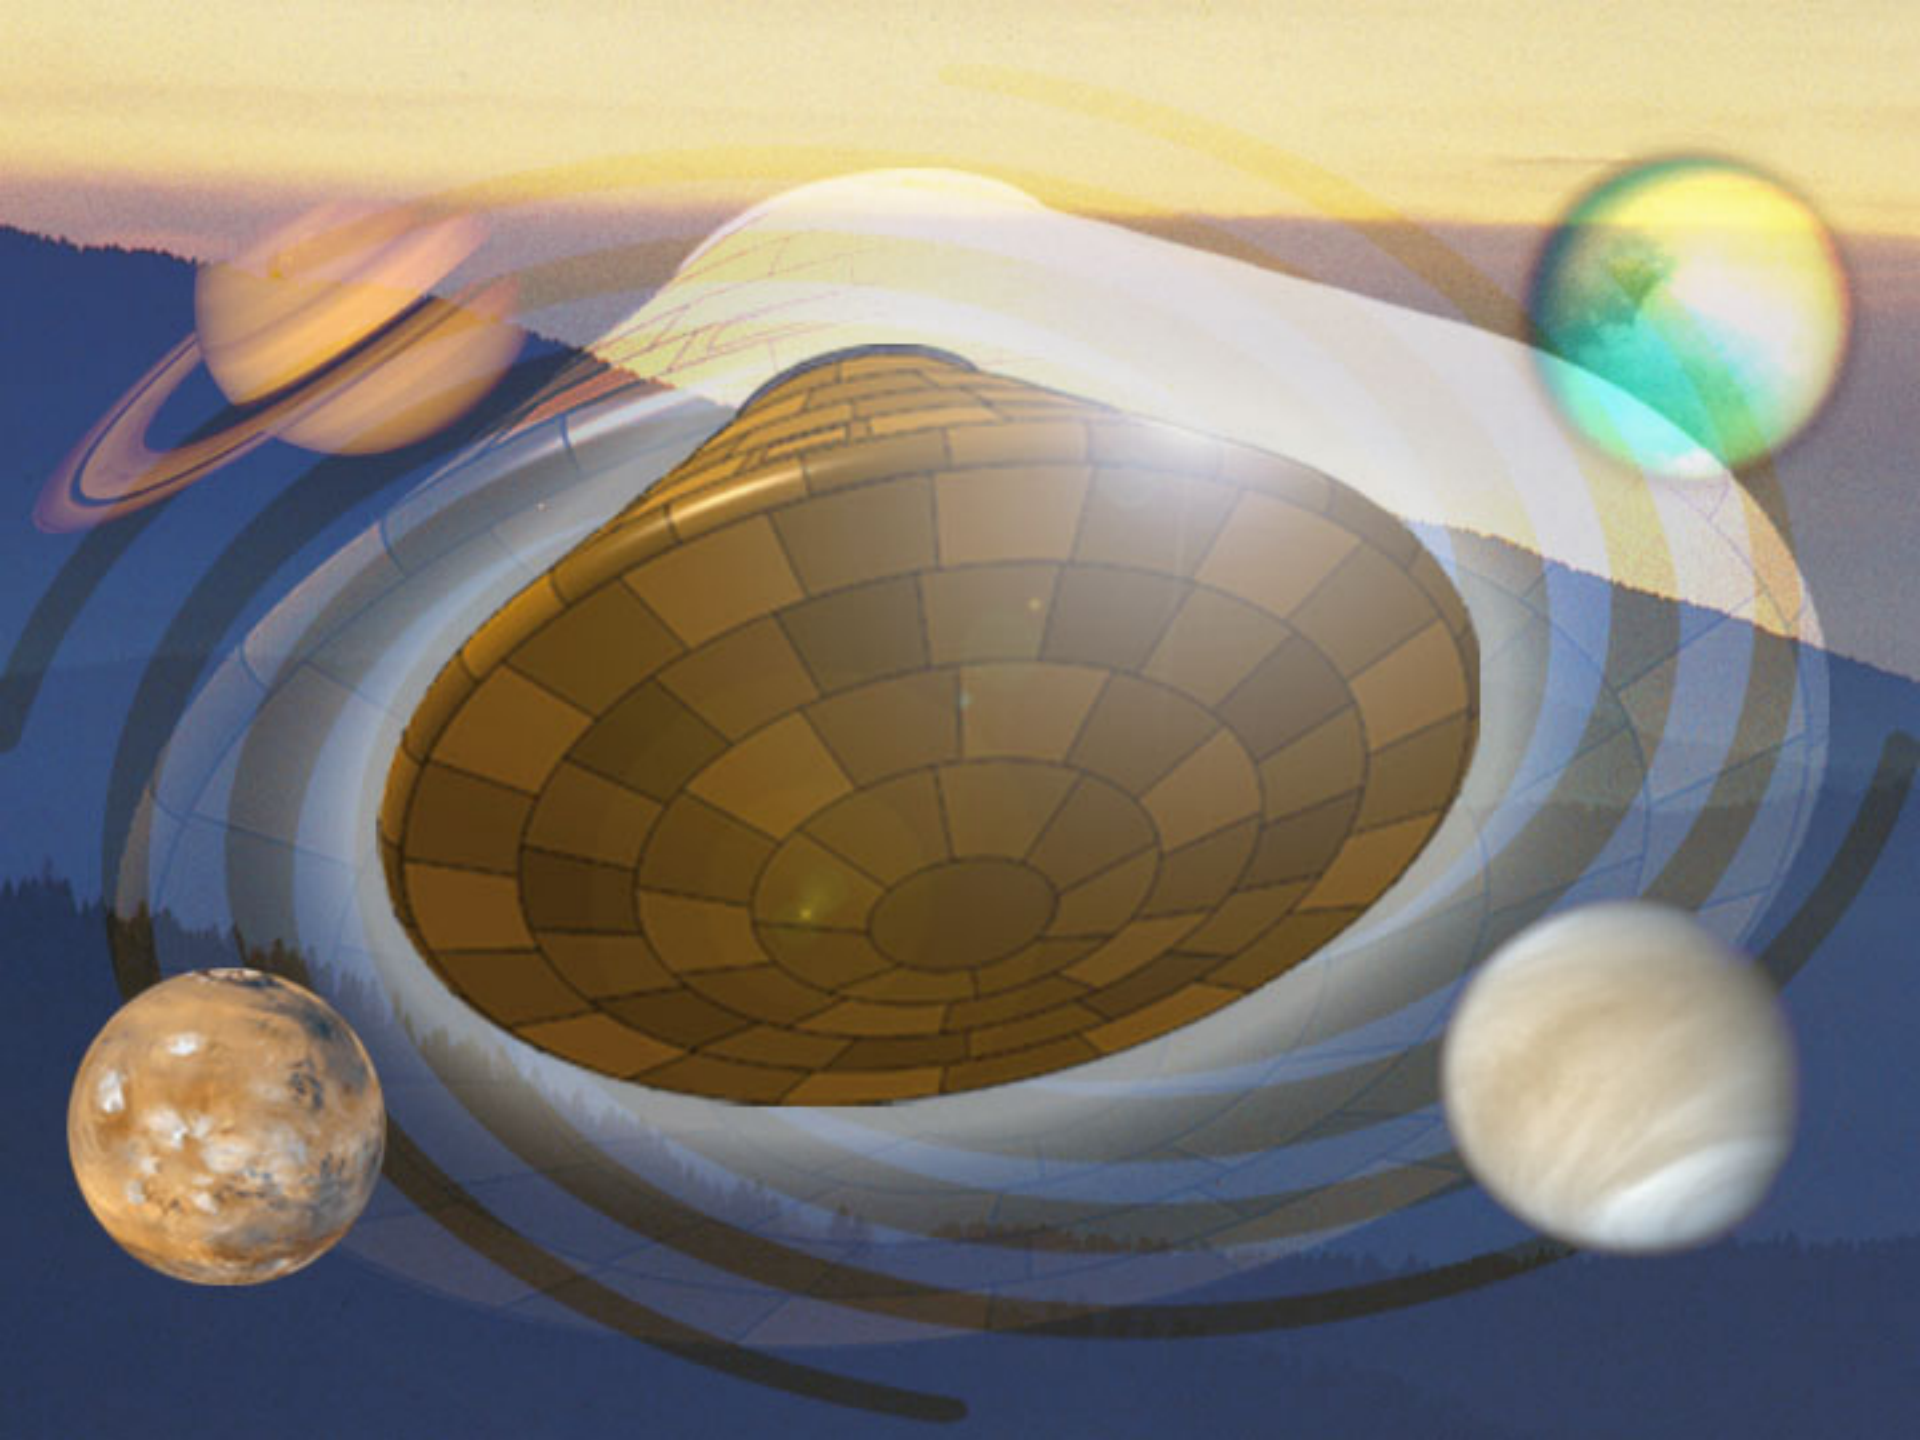

**Weather : fresh (anticipated
improvement on Thursday)**

**Other Questions ? → regular
announcements**

Mission concept studies, and science drivers of
technology, and sample return – Venus and Mars
(B. Bienstock, K. Baines, P. Plotard)

9:00

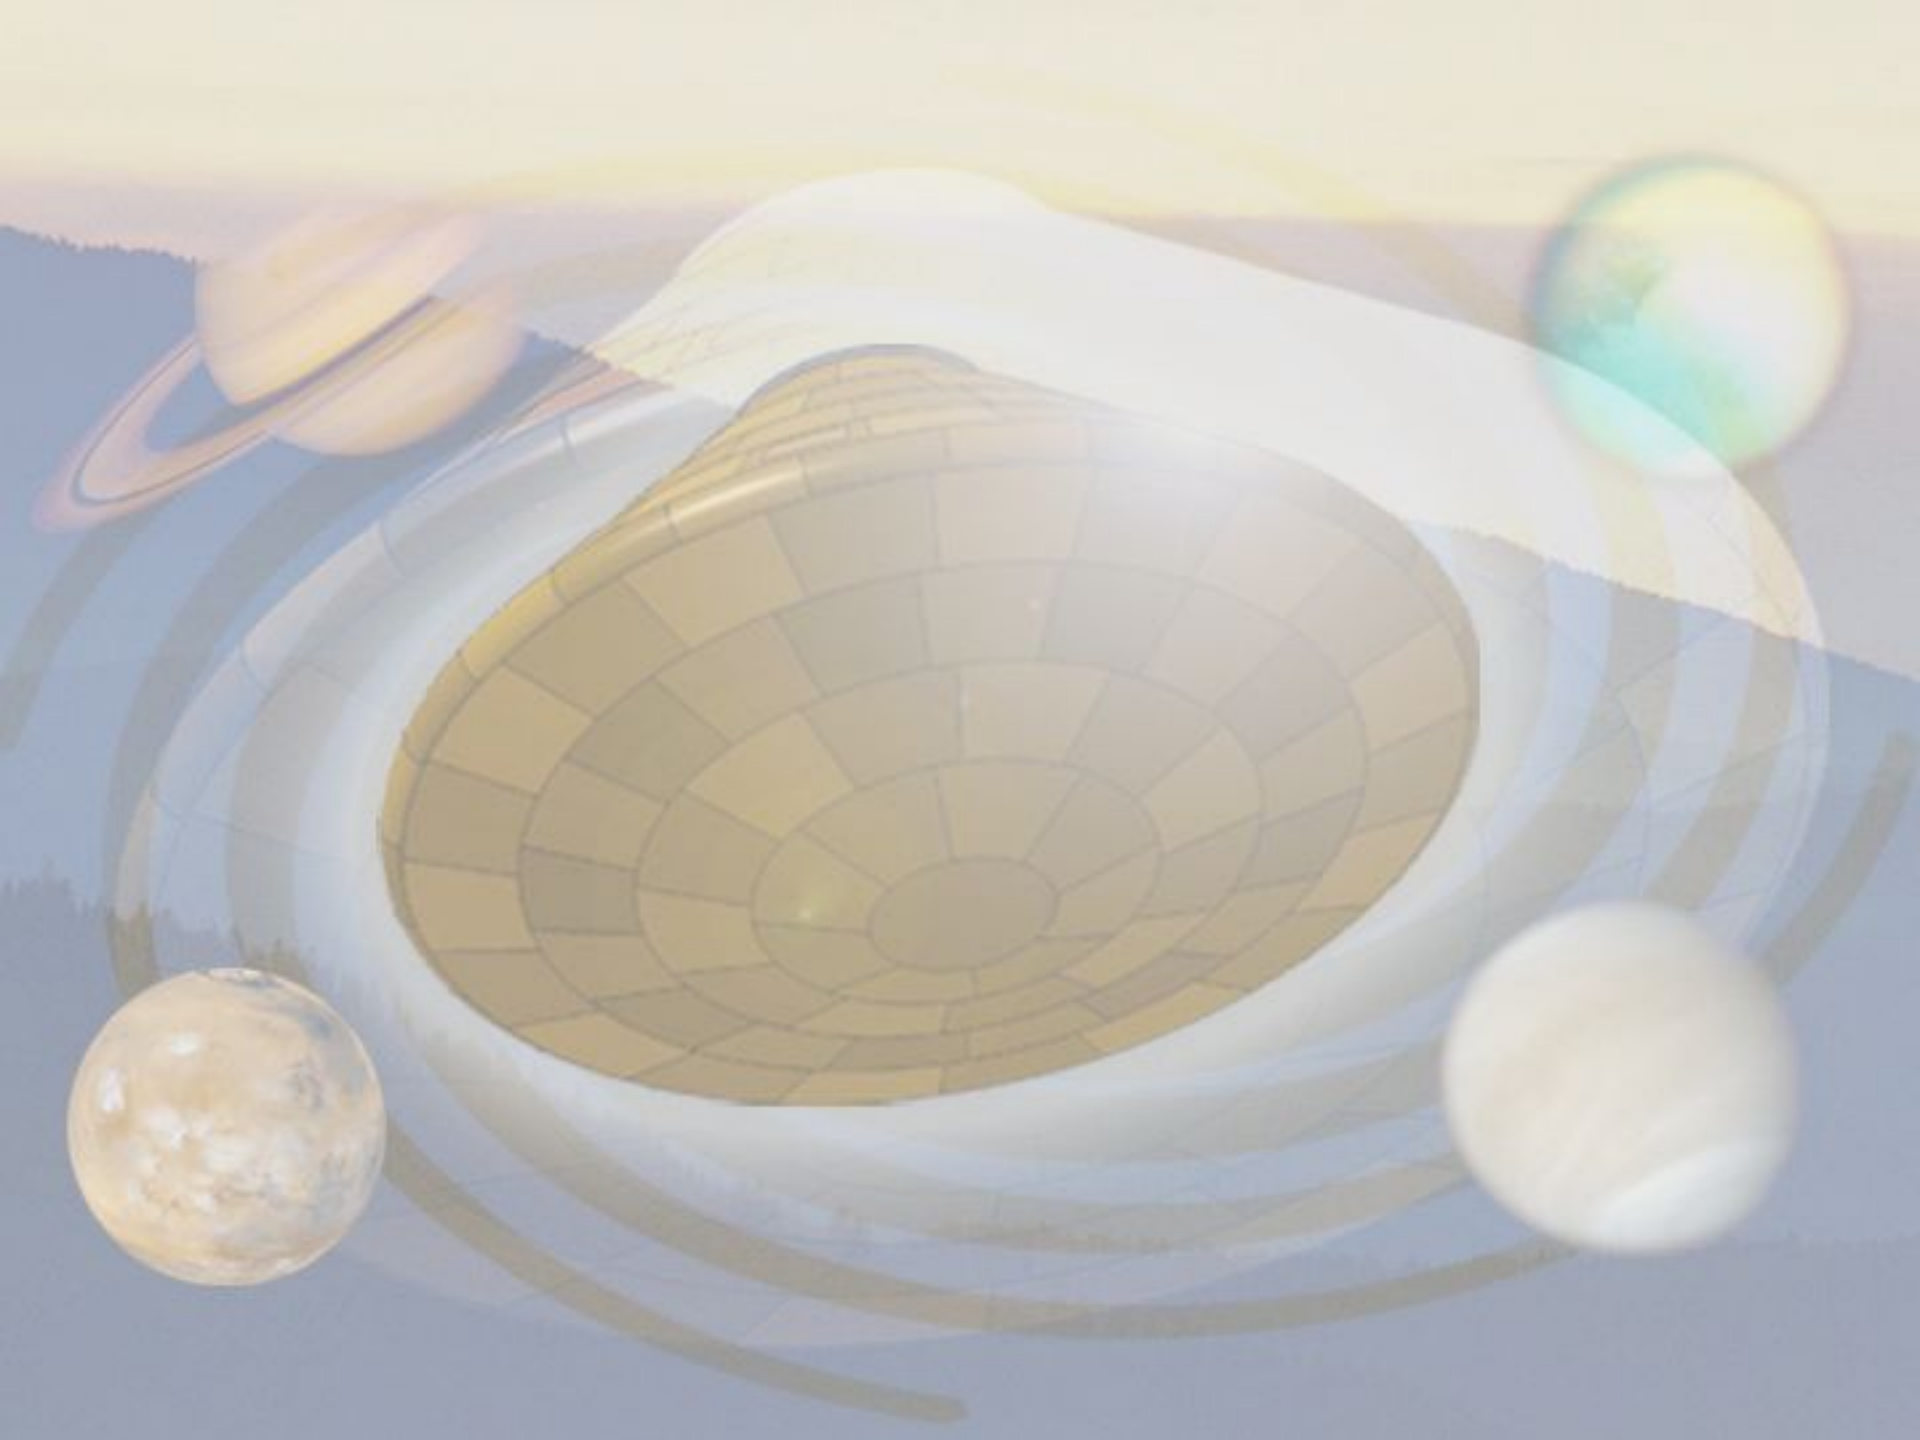

12:00-13:30 Lunch

5th International Planetary Probe Workshop

IPPW-5, Bordeaux, June 23-29, 2007

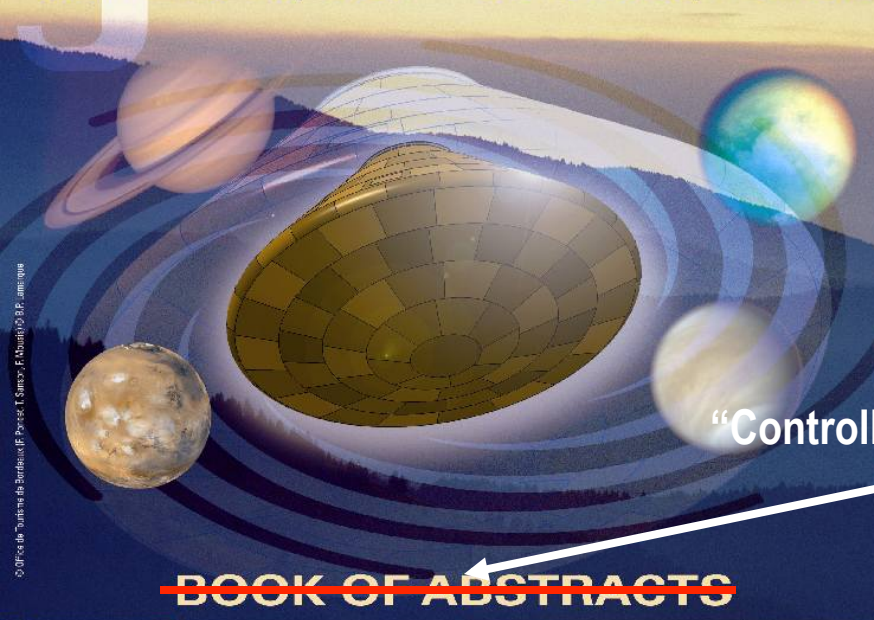

Short Course handout

5TH INTERNATIONAL PLANETARY PROBE WORKSHOP

JUNE 25-29, 2007 – BORDEAUX, FRANCE

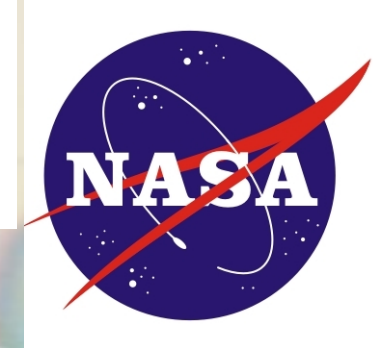

Short Course – June 23-24, 2007

“Controlled Entry and Descent into Planetary Atmospheres”
